To Whom It May Concern:

Mr. Kirk Wittner recently represented me a law suit action which did not go to court, but went on over three to four years time. He was representing PLICA insurance company and I found Mr. Wittner a very pleasant person to deal with who was very knowledgeable about my case and was very helpful when I was deposed by the plaintiff's attorney. While the case did settle, I have no doubts that Mr. Wittner would have represented me well in a court of law and found him to be very responsive and with his paralegal I felt that I was in very capable hands. I also had the pleasure of meeting his father who has a very long and well respected law career and overall I felt that their law firm would have done a good job for me and did actually do a very good job for me during the course of this case.

I would recommend Mr. Wittner if I ever needed his services again, and felt that he was very good lawyer for me during my several years of contact with him.

Sincerely,

Thomas P. Shaner, M.D., F.A.C.O.G.
